

TRAUMA INFORMED CARE FOR CAREGIVERS

Science, Hope and Healing

Trauma is common in children in our society. Early childhood toxic stress affects development, even with the most loving parents.

Please join Shauna Signorini, discussing:

- The impact of trauma on child development
- Practical ways to intervene and move forward
- Strategies in rebuilding the brain of a person who experienced trauma

Se dispone de servicios de inscripción e interpretación en español llamando a 541-732-5958

 **MONDAY**
